The global leader in  
door opening solutions

## Aperio Hands On Commissioning Training - Phase I of Certification

This course is designed as the hands on portion of the Aperio Certification Path. Registration on Assa Abloy Americas University to complete the online portion of the training will be required to complete the Certification Path. This course is designed to educate employees, resellers, installers and integrators about the Aperio system and the Aperio hardware, including hubs, locking device and other devices.

This training will include training for:

- Installation of product for proper mechanical operation
- Proper wiring
- How to configure hubs and locks.
- How to pair lock to Hub
- Encryption Keys are set and being used
- The EAC system is controlling the behavior of the locks and hubs
- Review the radio range and coverage area
- Troubleshooting
